<http://www.forestcompals.org.au/newsletters.htm>

Notebook computer

- Thinking of Buying a new Laptop?
- Then take a look at Notebookhunter
<http://apcmag.com/notebookhunter/index.htm>
- The help pages belong to APC Magazine but the advice is good and might help particularly if you insist in buying from Hardly Normal, Bung See etc.

Notebook computer

- Just bought that new Laptop
- Then run "Decrapifier" from
- <http://www.pcdecrapifier.com/download>

- This will clear your new computer of all the bulk-ware that comes with it.
- The sales person calls bonus-ware and its free. "Rubbish-ware"
- Demo available.

Protecting yourself and your Computer.

- Anti-Virus program
- Anti-Spamware program.
- Firewall other than Windows

- Comodo Suite Free.
- Trend Micro.
- McAfee ASAP through our friends at Hi-Speed networking.

Protecting yourself and your Computer.

- Emails that claim to be from your bank, Credit Card Company or some other service you use.

It usually asks you to send your account details, and sometimes your PIN, either by return email or through a website.

Protecting yourself and your Computer.

- The latest: The scammer rings you and says he needs access to your computer to remove a virus.

What do you do?

Tell him all your call are recorded.

Just hang up.

Skype.

- Its now portable take it with you on a flash drive, wherever you go.
Download it and other programs from PortableApps.com
You can take everything with you in your pocket.

Social Networking or

Please Rob Me

- PleaseRobMe website reveals dangers of social networks By Zoe Kleinman
Technology reporter, BBC News
- Boy Van Amstel created pleaserobme.com to make a point.
- A website called PleaseRobMe claims to reveal the location of empty homes based on what people post online.

Last but not the Least

- Microsoft has become God with
- GodMode.
- Somebody over there in the US is well ñ themselves.

- The new folder does give the expert some great access to the innards of Windows.
- But really GodMode!!!!!!!!!!
