Presidents Report: PC-Decrapifier

- How It Works
- Simply download the file. Open up the zip file and run the EXE. There is no installer necessary. If you have anti-virus software installed, it may complain about this program because it is written with a scripting language. These warnings can be safely ignored.
- You may then pick and choose what you want to remove. It will not begin removing anything without prompting you first!

Presidents Report: PC-Decrapifier

- Why?
- To get rid of all the excess programs that come with Named computers
- Dell, HP-Compaq & Acer all have what's called Crapware.
- So called free ware and Demo programs all
- Wasting valuable hard drive space.
- The idea is to remove it before you add all the programs you need.
