Test First Name your June 2016 Newsletter

Hello Test First Name, take a peek at our revamped newsletter right in your email app, it's also friendly on smartphones and tablets.

In future issues, we will continue to bring you more information enabling you to get the most out of your all your devices, along with club events, meeting highlights, and so much more.

Enjoy and let us know your comments and suggestions.

Guest Speakers

Derek Rowland & Colin ward will show the similarities of Apple Ipad and Android Tablet. You may find that you can help family members even though they don't have the same device. You can surprise your grankids that you know what their talking about.

Club Office

Kerrie Moore (our Web Master) and Colin Ward have recently devoted their week-end, assisted by John Ray to create a clean, fresh looking, uncluttered Club room.

The cable network has been redesigned and unwanted cables and power-boards removed.

Desk top computers have been re-arranged to create an Office Assistants desk in close proximity to the booking board and phone extension.

Also two new monitors have been installed which can be connected to small tablets or laptops for training purposes.

Two computers are also being rebuilt and will go into service soon.

Unused equipment is being sold on Gumtree and all proceeds to club.

Congratulations Kerrie, Colin and Ray for a job well done. S.E.P.

About your Newsletter

Your club newsletter has changed as you'll have seen in your 2nd copy of the May 2016. The header of the newsletter has been changed and the website will also change to

In This Issue

Only if you have LEGAL Windows 7 SP1 or Windows 8.1 up to date

You'll be paying after July 28th 2016 You do not have long, Hurry up or miss out.

BACKUP EVERYTHING BEFORE YOU START.

Happy Retirement Ian.

Long-time trainer Ian Parsons has retired due to ill-health.

Ian, who joined Computer Pals in March 1993, has been a great worker for the club, preferring to work in the background. He was trainer for many years. He usually assisted in all clean-up days, however his major role has been looking after the copier, not only being our primary contact with Sharp, but also ensuring we were never out of toner, paper, or envelopes. He watched out for bargain buys when opportunity arose. He resisted efforts to get him on the committee, saying he was more use to the club doing what he did in the background.

President Colin Ward and all members of Computer Pals wish you all the best for the future.

May Guest Speaker a great success.

The Guest Speaker, at the May general meeting, Eleanor Eakins gave a very interesting talk on the development of Stony Range from a patch of wilderness to the beautiful botanic garden it is now.

The presentation via our new projector showed the beauty of the angophoras, rock orchids, the various walking tracks, the magical play areas for children and the facilities available for picnics and BBQ s. Eleanor spoke of Harry the resident python who turned out to be Henrietta, with an appetite for possums and ducklings.

If it can be arranged, we hope to organise a group outing to Stony Range in the Springtime when the wild flowers are at their best.

DOOR PRIZE NEXT MEETING

Marie Bailey 90th.

During the Merry Month of May, Marie Bailey celebrated her 90th Birthday and what an inspiration she is to us all.

Numerous lunch outings were organised by her wide circle of friends to mark this special occasion.

At a recent general meeting Marie's long service to Computer Pals was acknowledged with a Certificate of Appreciation

prepared by Anna Karalus, a colourful pot plant and a card signed by those present at the meeting.

Our very best wished to you, dear Marie, from all at Computer Pals.

Our Trainers

The following indicates which days various trainers attend the club. To find which programs they teach,

please refer to the chart above the booking sheets at the club rooms.

We have about 14 trainers at present, but were always on the lookout for more keen people. Most trainers will tell you they have learned more by becoming a trainer. They'll also agree it's good fun and rewarding. If you are interested in becoming a trainer, please contact Darrell Hatch, our Training Coordinator.

DAY	TRAINERS AM	CONTACT NUMBER	TRAINERS PM	CONTACT NUMBER
